## KEIL® HINGE SELECTOR GUIDE

This hinge selector is designed to assist you in choosing the correct Keil hinges for commercial reach-in and walk-in refrigeration, foodservice equipment, transportation, industrial and other applications. The Load Chart below shows our recommended allowable load per pair of hinges for each hinge group.

The data supplied in this chart applies for normal operating conditions under static loading by door weight only. Other factors, such as positive or negative pressure, high gasket compression, lateral stress, corrosive or abrasive environments, or structural movement are not taken into account. It is the ultimate responsibility of the user to determine the suitability and capacity required for their specific application.

## HOW TO USE THIS CHART

1. Locate the weight of your door in the far left column, headed DOOR WEIGHT.
2. Find the width of your door along the bottom of the chart.
3. Where the weight line and width column intersect, find the recommended hinge group code (A, B, etc.)
4. Select your hinges from the Keil® hinge groups below.

NOTE: If exact dimensions and weight for your door is not shown, use the next higher width and weight.

Hinge Groups A-C Shown in REACH-IN, Section E  
Hinge Groups D-J Shown in WALK-IN, Section EE

LED LIGHT FIXTURES FOR COOLER/FREEZER APPLICATIONS

HIGHEST  
LUMEN/WATT  
IN THE INDUSTRY

MODEL NO.	LED LIGHT-COMPLETE
LED48X6222W	48" (1219mm) LED LIGHT, (2) 22W LAMPS, 120V
LED48X6218W	48" (1219mm) LED LIGHT, (2) 18W LAMPS, 120-277V
LED24X418W	24" (610mm) LED LIGHT, (1) 8W LAMP, 120-277V
MODEL NO.	LED LAMP ONLY
LED-212022	48" (1219mm) LED LAMP ONLY, 22W 120V/60Hz
LED-212018	48" (1219mm) LED LAMP ONLY, 18W 120-277V
LED-200013	24" (610mm) LED LAMP ONLY, 8W 120-277V

- Low profile design is ideal for walk-in coolers & freezers
- Resilient, one-piece silicone gasket rated IP-65 for damp & wet locations
- Superior highly-polished aluminum reflector improves light output
- Corrosion-free, high impact polycarbonate housing
- Clear, high impact polycarbonate lens with ribs for max. light dispersion
- Supplied with NEC-approved luminaire disconnects
- Operating temperature range from -40°F to 104°F (-40°C to 40°C)
- Provided with stainless steel mounting hardware and European Type PG-16 conduit connector
- Bulb life rated 50,000 + hours
- 5 year limited warranty on housing
- 1 year limited warranty on LED lamps

• **ENVIRONMENTALLY FRIENDLY...** LED lamps draw less wattage, saving you 50-80% over standard fluorescent and incandescent fixtures with similar light output, also reduces landfill waste and contains NO harmful mercury

• **REDUCES OPERATING EXPENSES...** less energy consumption means lower electrical bills, longer bulb life means lower maintenance and replacement costs and reduced incidences of unsightly bulb outages

• **CONVENIENT...** Instant On - no ballast or starter to warm up in cold environments, eliminates flickering and buzzing associated with fluorescent fixtures

• **SUPERIOR LIGHT QUALITY...** brilliant, focused light output at the work surface surpasses that of conventional fluorescent and incandescent fixtures

• Eligible for **LEED®** Credit... on Green building projects

FILE NO. 3188926

**18W Lamp:** (2 each) 120-277 VAC, 50/60 Hz, 18W, 5500K color temp.  
**Total Output:** 2900 Lumens  
**22W Lamp:** (2 each) 120 VAC, 60 Hz, 22W, 5500K color temp.  
**Total Output:** 3600 Lumens

**8W Lamp:** (1 each) 120-277 VAC, 50/60 Hz, 8W, 5500K color temp.  
**Total Output:** 700 Lumens

## ECONOMICAL LOW PROFILE COOLER-FREEZER LIGHT FIXTURES

- Energy efficient high power factor T-5 HO electronic ballasts reduce operating costs and power consumption
- Light fixtures generate less heat, reducing the cost to maintain low operating temperatures
- Minimum operating temperature for freezer applications is -20°F (-29°C) for the T5 ballast
  - Resilient, one piece silicone gasket rated IP-65 for damp and wet locations
  - Superior highly-polished reflector improves light output
    - Corrosion free high impact polycarbonate housing
    - Clear, high impact polycarbonate lens
  - Supplied with NEC approved luminaire disconnects
- Provided with stainless steel mounting hardware and European Type PG-16 conduit connector

MODEL NO.	SIZE	LAMPS	VOLTAGE
CFL-36U54X2T5	48" Housing	(2EA.) F54T5HO	UNV= 120 -277V, 50-60 Hz

NOTE: LAMPS NOT PROVIDED - REPLACEMENT BULBS AVAILABLE, ORDER AS [CFL-5EH54W841](#)

## VXS-CFL SERIES SURFACE MOUNT COMPACT FLUORESCENT REFRIGERATION LIGHTING FIXTURE

Up To  
**75%**  
Energy Savings

- **EXCEPTIONAL LIGHT OUTPUT** - 26W lamp produces 1650 lumens (over 60 lumens output per watt)
- **ENERGY EFFICIENT** – 26W compact fluorescent lamp uses approximately 75% less energy than a standard 100W incandescent bulb
- **COST EFFICIENT** – Compact fluorescent lamp lasts up to 10 times longer than standard incandescent bulbs, resulting in lower operating and maintenance costs
- **LONG LAMP LIFE** – up to 10,000 hours
- **UL LISTED** – suitable for damp locations
- **BULB** has integral rapid start electronic ballast with flicker-free performance
- Uses standard GU24 bi-pin base compact fluorescent lamps
- 2 year manufacturer's warranty on bulbs
- Ideal for Walk-In Cooler applications

### SPECIFICATIONS

<b>LAMP BASE:</b>	GU24 bi-pin
<b>BALLAST TYPE:</b>	Electronic, Instant start (in bulb)
<b>WATTAGE:</b>	26W Compact fluorescent lamp Included
<b>VOLTAGE:</b>	120V AC, 50/60Hz
<b>BALLAST OPERATING TEMP. RANGE:</b>	0°F (-18°C) to 194°F (90°C)
<b>LIGHT OUTPUT COLOR:</b>	2700K (CRI = 84)
<b>FIXTURE BODY &amp; JUNCTION BOX:</b>	Die cast aluminum
<b>GASKETS:</b>	Cork and composition fiber
<b>GLOBE:</b>	Silicone coated glass
<b>WIRE GUARD:</b>	Plated steel
<b>OVERALL SIZE:</b>	4-1/4" (108mm) diameter, 9-1/4" (235mm) long with wire guard
<b>CONDUIT ENTRY:</b>	1/2" NPS (4) side openings and (1) top opening. Threaded metal plugs are provided for openings not being utilized

W31 SERIES  
MAGNETIC DOOR BREAKER-ACTION HANDLE

- For Refrigeration Doors with Magnetic Gaskets
  - Aluminum Sand Cast Construction
  - Breaker Action Promotes Easy Door Opening
  - Satin Finish
  - Padlock and Cylinder Lock Models Available
  - Complete with Inside Safety Release
  - For Doors with 1-3/8" (35mm) Offset
  - Inside Release Designed for 4-5/8" (117mm) Door Thickness\*
- \* Other lengths available on application

MODEL NO. W31-1000

REPLACES\* STANDARD KEIL (#2820 & 9180) AND DENT (D-83)  
WITH KEIL QUALITY HARDWARE

# Walk-In Cooler Door Safety Latches

## W19 SERIES SAFETY LATCHES DESIGNED ESPECIALLY FOR WALK-IN REFRIGERATORS AND FREEZERS

- AVAILABLE IN POLISHED CHROME OR SATIN CHROME FINISH

**HEAVY- DUTY CONSTRUCTION...** to provide the impact resistance required in heavy traffic areas. The latch body is constructed of reinforced die cast Zamak and furnished with a solid handle. All inner working parts and back plate are manufactured of solid stainless steel, unlike competitors models that can rust and leave unsightly stains on doors.

**TAMPER PROOF DESIGN...** eliminates pilferage of costly food stocks. Bolt cannot be retracted from the outside when latch is cylinder locked or padlocked. Yet with safety inside release mechanism occupants can safely exit even if latch is locked or padlocked.

**FRICTION FREE OPERATION...** provided by utilizing roller bolt retraction combined with roller strike action. Eliminates wear and allows doors to close smoothly and easily without slamming, while offering superb gasket compression.

**EASY LIFT HANDLE...** user friendly requires minimal hand pressure to completely retract bolt from strike. Low 1-1/2" (38mm) handle rise eliminates tugging and wrist twisting.

**EASILY ADJUSTED STRIKE ASSEMBLY...** offers variable offset adjustment permitting field adjustment for door gasket wear.

MODEL NO.	DESCRIPTION	FINISH	OFFSET
W19-1000	NO CYLINDER LOCK	POLISHED CHROME	
W19-1000-C	WITH CYLINDER LOCK	POLISHED CHROME	-1/8" TO 3/8" (-3mm TO 10mm)

\*NOTE: Non-stock item

**SUPER HEAVY-DUTY CONSTRUCTION...** and large body profile latch is designed to withstand the most rigorous of commercial kitchen or cold room environments. Latch handle is produced of lifetime **SOLID FORGED BRASS** construction. All inner working parts and back plate are manufactured of solid stainless steel which provide a rugged, smooth and rust-free operation.

## W99 SERIES INVESTMENT CAST SAFETY LATCHES

- The **ONLY ALL STAINLESS LATCH** available today's market
- Solid stainless steel construction throughout
- Ideal for highly corrosive and humid environments
- Ideal for marine applications, outside cold rooms and commercial refrigerated truck bodies
- Rugged heavy-duty lifetime construction
- Tamper-proof design
- Padlock feature on all latches for maximum security
- Cylinder lock model also available

W28 SERIES INSIDE SAFETY RELEASES  
FOR RECESSED MOUNT

- **SURFACE MOUNT AND FLUSH MOUNT STYLES** are available
- **GLOW-IN-THE- DARK KNOB** meets all industry safety standards
- Durable **SOLID FIBERGLASS REINFORCED** polyester pushrod provides years of smooth, safe, frost-free operation and eliminates conductivity of cold air
- Short Stroke engineering provides **IMMEDIATE INSIDE RELEASE** even if latch is cylinder locked, padlocked or both
- **RECESSED DESIGN** protects knob from exposure to traffic of heavy crates, hand trucks and loading vehicles
- **ALL STANDARD DOOR THICKNESSES** are available

SPECIFICATIONS

**KNOB:** GLOW-IN-THE-DARK SAFETY GREEN THERMOPLASTIC

**FLANGE:** GREY THERMOPLASTIC

**PUSH ROD:** NON-CONDUCTIVE FIBERGLASS REINFORCED POLYESTER

W28-2300-SS	S/S ROD FOR 3" (76mm) WALL WITH BRASS KNOB
W28-2605	BRASS ROD FOR 6" (152mm) WALL

REPLACES\* KASON #487, 481 AND 482 WITH  
KEIL QUALITY HARDWARE

## PANIC BAR W/INSIDE SAFETY RELEASE MODEL NO. W28-1000

- STURDY ALUMINUM CONSTRUCTION
- GLOW-IN-THE-DARK REFLECTIVE STRIP

## PADLOCK HASP WITH INSIDE SAFETY RELEASE MODEL NO. W29-5000-4

- For 4" (102mm) wall and flush door
- External parts are 300 series stainless steel with satin finish
- Plate can be locked in lock/open as well as locked/closed position
- Concealed mounting holes utilize #10 or #12 flat head screw
- Plastic glow in the dark inside release knob on solid brass rod

Simple padlocking hasp secures any walk-in cooler or freezer door.

# Hardware Designed Specifically for Outdoor Structures

## SPECIALTY HARDWARE FOR OUTDOOR APPLICATION

- IDEAL FOR HIGHLY CORROSIVE AND HUMID ENVIRONMENTS
- IDEAL FOR MARINE APPLICATIONS, OUTSIDE COLD ROOMS AND COMMERCIAL REFRIGERATED TRUCK BODIES
- RUGGED HEAVY-DUTY LIFETIME CONSTRUCTION
- TAMPER-PROOF DESIGNS

### STAINLESS STEEL THREE POINT LATCH

MODEL NO.  
W37-3000-SS

### W38 SERIES HEAVY-DUTY WALK-IN DOOR SAFETY LATCHES

- Available in polished chrome or satin chrome finish
  - Super heavy-duty construction and large body profile latch designed to withstand the most rigorous conditions
  - Handle is solid forged brass, inner working parts and back plate are solid stainless steel for smooth and rust-free operation
- REPLACES\* KASON #56 WITH KEIL QUALITY HARDWARE**

### W99 SERIES HEAVY-DUTY HINGE

- Available in chrome plated brass
- Available in flush or 5/8" (16mm) offset
- Heavy-duty construction to withstand rigorous conditions
- Models available with OILITE® bronze bushings for added strength & durability

### W28 SERIES STAINLESS STEEL INSIDE RELEASE W28-1000 PANIC BAR W/INSIDE RELEASE

- Sturdy aluminum construction
- Glow-in-the-dark reflective strip

### W28-2300-SS STAINLESS STEEL INSIDE RELEASE

- For 3" (76 mm) door thickness
  - Additional sizes for varying door thicknesses available on application
- REPLACES\* KASON #481 WITH KEIL QUALITY HARDWARE**

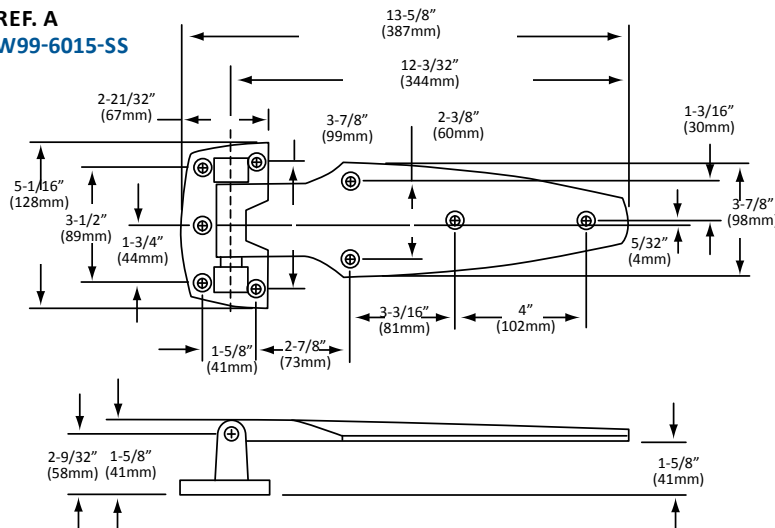

### W37-3000-SS STAINLESS STEEL THREE POINT LATCH

- Positive dead bolt locking
- Holds door closed in 3 places– top, center & bottom to minimize leakage and save energy
- Strongest latch made
- Spring loaded over-center latching

## W99 SERIES INVESTMENT CAST HINGES

REF. A  
W99-6015-SS

- The **ONLY ALL STAINLESS HINGE** available in today's market
- Field Reversible
- Solid stainless steel construction throughout
- Ideal for highly corrosive and humid environments
- Ideal for marine applications, outside cold rooms and commercial refrigerated truck bodies
- Rugged heavy-duty lifetime construction
- Tamper-proof design

REF. B  
W99-4100

MODEL NO.	DESCRIPTION

W60-1125	1-1/4" (32mm)
W60-1137	1-3/8" (35mm)
W60-1150	1-1/2" (38mm)
W60-1162	1-5/8" (41mm)
W60-1175	1-3/4" (45mm)
W60-1187	1-7/8" (48mm)
W60-1200	2" (51mm)

REPLACES\* KASON #1245 AND STANDARD KEIL #2860 WITH KEIL QUALITY HARDWARE

### W60 SERIES HINGE - LONG STRAP SATIN CHROME FINISH

W60-2000	FLUSH
W60-2025	1/4" (6mm)
W60-2112	1-1/8" (29mm)
W60-2137	1-3/8" (35mm)

### W60 SERIES HINGE - SHORT STRAP POLISHED CHROME FINISH

W60-1000-S	FLUSH
W60-1012-S	1/8" (3mm)
W60-1025-S	1/4" (6mm)
W60-1037-S	3/8" (10mm)

#### COORDINATED STYLING

Design coordinated with clean, unobtrusive lines to aesthetically complement the **W19 AND W38 SERIES EASY ACTION SAFETY LATCH** or other contemporary breaker hardware, latches or pulls.

#### REVERSIBLE

Can be utilized for any right or left hand door application. Conversion is easily accomplished without tools.

#### UNIQUE CAM ACTION

Contains self-lubricating nylon and Delrin cam rise components to provide **GLIDE-ACTION** door operation. These components reduce door sweep gasket wear regardless of floor irregularity and provide constant overclose pressure against the door gasket assuring a positive seal. A **HOLD-OPEN** feature is built into the cam allowing the door to remain open at 140°. The door will automatically return to a closed position if opened less than 140°.

#### LIFT-OFF CAPABILITY

Doors can be removed quickly without tools or hinge disassembly. This allows for knockdown shipment and eliminates costly on-site installation and service time.

#### DURABLE

Constructed of die-cast Zamak with built-in structural reinforcing ribs for extraordinary strength and years of trouble-free operation.

#### ALL TYPE CONSTRUCTION

This series is designed to meet the universal requirements of all types of cooler construction especially foam.

#### UNIVERSAL MOUNTING HOLES

Allows REPLACEMENT\* with all competitors models without redrilling or reinforcing.

#### • W60 SPECIFICATIONS LISTED ON NEXT PAGE

## W60 SERIES HINGES

### SPECIFICATIONS

<b>OFFSET:</b>	Flush thru 2" (51mm)
<b>FINISH:</b>	Polished Chrome or Satin Chrome Finish
<b>MATERIAL:</b>	High pressure die cast Zamak
<b>MOUNTING HOLES:</b>	Drilled and countersunk for #14 screws (6mm)

## POWER SPRING CONVERSION CARTRIDGE KIT

**MODEL NO. W62-0001** Polished Chrome Finish  
**MODEL NO. W62-2001** Satin Chrome Finish

- ACCELERATES DOOR CLOSING
- INCREASES DOOR PRESSURE
- EASY INSTALLATION
- REDUCED INVENTORY

The energy saving power spring conversion cartridge is designed for easy installation into the W60 Series Lift-off Hinge. It provides increased door speed closure and maintains constant gasket pressure to eliminate refrigerated air loss. Unlike competitor's spring hinges, this optional cartridge kit can be simply added at any time to the W60 Series Lift-off Hinge eliminating costly inventories.

The cartridge kit contains a heavy duty chrome vanadium spring to assure years of trouble-free operation. The assembly may be used for either left or right hand doors, permitting reduced inventory for both hinges and conversion kits. When required, the cartridge may be easily disengaged for door removal.

Note: This conversion cartridge eliminates the lift-off capability of the W60 SERIES LIFT-OFF HINGE. REPLACES\* KASON #1248 AND STANDARD-KEIL #2862 WITH KEIL QUALITY HARDWARE

### EASY INSTALLATION

## HEAVY-DUTY CAM-RISE HINGE 1-5/8" (41mm) OFFSET

**MODEL NO. W77-1625**

- For cold storage, supermarket and other heavy-duty walk-in applications
- Reversible for left or right-hand doors without disassembly
- Self-closing cam-rise action
- Heavy-duty zinc-plated steel strap with satin finish
- Black epoxy-coated die cast flange
- Drilled for 3/8" mounting hardware
- Other offsets available upon application

REVERSIBLE SELF-CLOSING HINGE WITH CAM-RISE CONSTRUCTION

- Contemporary design and heavy precision die-cast construction provides durable, dependable service
- Self-closing, self-lubricating, self-rising cam provides smooth quiet closing action
- Lift-off and reversible non-handed cam design allows for easy field installation
- Special cam design feature provides a hold open dwell at 100° opening to facilitate loading and unloading of cooler
- Available in both long and short strap models
- Special satin chrome finish offers years of clean, trouble-free use while matching related hardware and cooler door coverings
- Polished chrome finish available
- Optional spring assist cartridge assembly available for accelerated and positive door closing

REF.	MODEL NO.	A	B	FINISH

HYDRAULIC DOOR CLOSER FOR WALK-IN REFRIGERATORS AND FREEZERS

- RUGGED CONSTRUCTION
  - DEPENDABLE ACTION
- CONTEMPORARY DESIGN
  - ECONOMICAL
- Overcomes difficulties experienced in closing a refrigerator or freezer door against the air that compresses inside
- Actually pulls refrigerator or freezer door closed while allowing the compressed air in the unit to slowly escape, then holds door firmly closed to eliminate loss of refrigerated air
- Where severe temperature and pressure conditions combine to force doors open, responds to the released pressure and immediately recloses the door
- Universal mounting holes, permit easy REPLACEMENT\* of competitive models, complete with white snap-on dust cover.

# Pressure Relief Port for Square Cut Out

## W86 SERIES VENT PORT FOR WALK-IN COOLERS AND FREEZERS

This compact unit provides maximum pressure relief venting by using lightweight, flexible riser flaps that lift with air pressure and return to a sealing position by a gravity memory action. Designed for longevity there are no springs or mechanical components to fatigue or wear out.

- Provides more venting than most competitive models
- Two-way air flow assures instant pressure balance
  - Insulated & vermin proof screened openings
  - Maintenance free • Easy to install
- Heated models provide frost-free operation which is required for all freezer applications, non-heated models are available for cooler use only • Economically priced

### W86 SERIES PRESSURE RELIEF PORT

# FIP PANEL FASTENERS

## FOAMED-IN-PLACE PANEL FASTENERS

Keil® brand Foamed-In-Place (FIP) Panel Fasteners are ideal for use in high volume fabrication operations when consistency and outstanding performance are your driving concerns. This fastening system provides a fool-proof method for accurately positioning, inserting and anchoring the fasteners into your insulated panels, that will save you both time and money

## HOW FIP FASTENERS WORK

Simply affix our dedicated panel fastener adapters to your existing foaming jigs to create a permanent anchor point that insures your fasteners are securely and precisely positioned in every foamed panel. The unique design of these adapters guarantees that the locking points and strikes cannot be installed upside down or on the wrong side of the jig, resulting in reduced scrap and production times. In addition, we manufacture these adapters from hardened steel for durability and extended service life.

Attaching FIP panel fasteners to your foaming jig is as simple as snapping the locking points and strikes on to their respective adapters, closing the jig and foaming your panels. All of our FIP fasteners are designed with specially placed holes in the housing to permit foam to completely fill around the fastener for superior pull-out strength and better insulating properties.

## ADDED VALUE

Unlike competitive models, all Keil® brand FIP panel fasteners feature our improved ALL STEEL friction drive cam system for added strength and reliability. These unique cams prevent stripping of the hex points when locking or unlocking panels. This minimizes issues with on-site installations and eliminates the need to scrap panels because of stripped-out fasteners that no longer work.

## THE KEIL® DIFFERENCE

Keil® Refrigeration Hardware is known for innovative design, exceptional value and unsurpassed quality. Our products are manufactured to our exacting standards to insure they can withstand the rigorous demands required in commercial refrigeration applications.

We know that panel fasteners are the “glue” that holds your walk-in cooler/freezer together. If they do not function properly, it can result in increased energy consumption or failure of the structural integrity of the entire unit. That's why all of our panel fasteners undergo rigorous quality inspections to insure our customers of the durability and reliability they have come to know and trust from the Keil® brand.

The next time you are building or specifying a walk-in cooler, freezer or environmental enclosure, be sure that it is made using authentic Keil® brand refrigeration hardware for trouble-free performance and peace of mind.

1. Insert outer skin of the panel into the mold.

2. Snap fastener (locking point or strike) onto its unique Keil adapter.

3. Insert inner skin into the mold fixture. Close mold and inject foam.

4. After curing, open the mold and retract edge rails. Remove completed panel with fasteners securely in place. Lock panels using Keil Model No. W27-0001-C wrench.

Use Model No. W27-0001-C hexagonal wrench for easy locking of all Keil panel fasteners.

## W27 SERIES COMPACT FOAMED-IN-PLACE

**MODEL NO. W27-7300**

### LOCKING HOOK

- Friction drive allows hook to slice through foam, locates the female locking pin in mating panel and tightens, providing a positive panel seal
- Zinc plated construction eliminates corrosion concerns and improves mastic adhesion
- Compact construction, superior strength, heavy gauge
  - Permits interchangeability of panels

**JIG ADAPTER MODEL NO. W27-1173H**

**MODEL NO. W27-7400**

### STRIKE

- Interchangeable for use on existing foaming jigs and adapters
  - Special guide ribs are built in the female housing which direct the hook to an on-center position
  - Offers reliable repeat service and performance
- Large diameter foam holes ensure positive foam integrity

**JIG ADAPTER MODEL NO. W27-8804**

REPLACES\* KASON #1173 WITH KEIL QUALITY HARDWARE

# SLAB FOAM PANEL FASTENERS

## HOW TO BUILD INSULATED PANELS WITHOUT COSTLY TOOLING

Slab Foam Panel Fasteners are ideal for fabricators looking for a low cost method of constructing light weight insulated panels using Styrene, Styrofoam or urethane sheet stock. These plastic block fasteners are available for 2", 4" & 6" wide panels to accommodate applications including environmental enclosures, walk-in coolers and walk-in freezers.

## ADDED VALUE

Unlike competitive models, all Keil® brand slab foam panel fasteners feature our improved ALL STEEL friction drive cam system for added strength and reliability. These unique cams prevent stripping of the hex points when locking and unlocking panels. This minimizes issues with on-site installations and eliminates the need to scrap panels because of stripped-out fasteners that no longer work. In addition, the 4" & 6" models are available with pre-foamed backs to improve the insulating value around the fasteners.

## THE KEIL® DIFFERENCE

Keil® Refrigeration Hardware is known for innovative design, exceptional value and unsurpassed quality. Our products are manufactured to our exacting standards to insure they can withstand the rigorous demands required in commercial refrigeration applications.

We know that panel fasteners are the "glue" that holds your walk-in cooler/freezer together. If they do not function properly, it can result in increased energy consumption or failure of the structural integrity of the entire unit. That's why all of our panel fasteners undergo rigorous quality inspections to insure our customers of the durability and reliability they have come to know and trust from the Keil® brand.

The next time you are building or specifying a walk-in cooler, freezer or environmental enclosure, be sure that it is made using authentic Keil® brand refrigeration hardware for trouble-free performance and peace of mind.

1. Cut insulating material to size. Shape tongue and groove surfaces. Notch panel for fastener.

2. Insert plastic housing, either locking point or strike, as needed.

3. Apply adhesive to metal skins. Laminate foam between two skins and apply pressure for bonding. (Return bend on metal helps to hold fastener in place.)

4. After curing, panels are ready for assembly. Completed panels are easily locked in position at assembly site using the Keil W27-0001-C.

Use Model No. W27-0001-C hexagonal wrench for easy locking of all Keil panel fasteners.

# RIGID RAIL PANEL FASTENERS

## DESIGNED ESPECIALLY FOR WOOD, HIGH DENSITY FOAM OR METAL FRAME RAILS

This series of Keil® brand panel fasteners is designed for use with wood, high density foam or metal frame rail insulated panels. This economical method of producing pre-fabricated insulated panels permits the manufacturer to build panel sections of virtually any size or shape.

We offer a wide array of rigid rail locking points, strikes and pins, which may be combined to accommodate a broad range of panel thicknesses, joint types and rail materials.

## ADDED VALUE

Unlike competing models, Our Keil® brand of rigid rail panel fasteners are FULLY constructed of heavy-gauged steel, including our unique friction drive cam system for unsurpassed strength and locking ability. These unique cams prevent stripping of the hex points when locking or unlocking panels. This minimizes issues with on-site installations and eliminates the need to scrap panels because of stripped-out fasteners that no longer work.

## THE KEIL® DIFFERENCE

Keil® Refrigeration Hardware is known for innovative design, exceptional value and unsurpassed quality. Our products are manufactured to our exacting standards to insure they can withstand the rigorous demands required in commercial refrigeration applications.

We know that panel fasteners are the “glue” that holds your walk-in cooler/freezer together. If they do not function properly, it can result in increased energy consumption or failure of the structural integrity of the entire unit. That's why all of our panel fasteners undergo rigorous quality inspections to insure our customers of the durability and reliability they have come to know and trust from the Keil® brand.

The next time you are building or specifying a walk-in cooler, freezer or environmental enclosure, be sure that it is made using authentic Keil® brand refrigeration hardware for trouble-free performance and peace of mind.

Use Model No. W27-0001-C hexagonal wrench for easy locking of all Keil panel fasteners.

1. Cut frame material to form panel perimeter.

2. Determine locations for fasteners and mortise, dado, or rout slots. Drill wrench holes. (If using W27-5501/5502, drill pin holes.)

3a. Place fastener in slot and nail or staple in place.  
3b. If using W27-5501/5502 pin, insert in drilled pin holes. (Taping of back may be required when foaming.)

4. Assemble frame with panel skins.

5. Clamp panel in restraining fixture and inject foam.

6. The finished panels are ready for fast, easy joining using W27-0001-C wrench.

## W27 SERIES WOOD FRAME AND METAL FRAME

### MODEL NO. W27-5600A & W27-5600B LOCKING HOOK

MODEL NO.	X	Y
W27-5600A	1-7/16" (37mm)	1-31/32" (50mm)
W27-5600B	1-7/16" (37mm)	2-11/32" (60mm)

- Zinc plated
- Ideal for wood, high density rail or metal frame construction
- Stamped holes provided for easy mounting with staple, screw or nails
  - Heavy-duty steel housing
- Assorted offset strike assemblies or strike pins available
  - Economical

### MODEL NO. W27-55 SERIES LOCKING STRIKE

MODEL NO.	"A" OFFSET
W27-5550	1/2" (13mm)
W27-5562	5/8" (16mm)
W27-5568	11/16" (17mm)
W27-5575	3/4" (19mm)

#### REF. A W27-5600A & W27-5600B LOCKING HOOK

REPLACES\* KASON #1156A & 1156B WITH KEIL QUALITY HARDWARE

#### REF. B W27-55-- LOCKING STRIKE

#### REF. C W27-5501 PIN, SHORT

3-1/4" (82mm) x 1/4" (6mm) DIA.

REPLACES\* WITH KASON #1156-36  
WITH KEIL QUALITY HARDWARE

#### W27-5502 PIN, LONG

4-3/4" (120mm) x 1/4" (6mm) DIA.

REPLACES\* KASON #1155 WITH KEIL QUALITY HARDWARE

# Accessories for Walk-In Refrigeration & Freezers

## ACCESSORIES FOR WALK-IN REFRIGERATION & FREEZERS

REF. A

### CAULKING GUN

For Use with  
10.3 oz (305ml) cartridges

**MODEL NO. Q99-1000**

REF. D

### SNAP-IN FINISHING CAP

**MODEL NO. W27-0002-C**

- 3/4" diameter
- Grey polyethylene
- For use with W27 series panel fastener
- Covers wrench holes for clean appearance

REF. B

### SILICONE SEALER

- Fits all standard caulking guns
  - F.D.A. APPROVED
  - U.L. RECOGNIZED

File No. E224060

- MEETS F.D.A. EXTRACTION REQUIREMENT
- Silicone Sealant 10.3 oz (305ml) cartridge
  - Supplied with removable tip

MODEL NO.	COLOR	MAXIMUM SERVICE TEMP.
M90-1010	CLEAR	400°F (232°C)
M90-1012	ALUMINUM	400°F (232°C)

REF. E

### SNAP-ON MOULDING

- Stainless steel cover with galvanized back plate
  - Ideal for use as a back-up plate for gaskets around door jam

MODEL NO.	WIDTH
J60-2200*	3/8" (10mm)
J60-2220*	1/2" (13mm)
J60-2240	3/4" (19mm)
J60-2260	1" (25mm)
J60-2270	1-1/4" (32mm)
J60-2280*	1-1/2" (38mm)
J60-2320*	2" (51mm)

12 FT. (3657mm) LENGTHS \*NON-STOCK ITEM AVAILABLE ON APPLICATION SPECIAL LENGTHS AVAILABLE UPON REQUEST

REF. C

### HEX WRENCH

**MODEL NO. W27-0001-C**

**MODEL NO. W27-0001-CTS\***

Hex wrench with rubber sleeve\*

- 6" x 6" (152mm x 152mm)
  - Hardened steel
- For use with W27 series panel fasteners
- Readily replaces\* competitors' wrenches

REF. F

### PRESSURE SENSITIVE INDUSTRIAL TAPE

MODEL NO.	DESCRIPTION	SIZE	CASE QTY
Q84-1200	MASKING TAPE	2" x 60 YDS (51mm x 54m)	24 CASE
Q84-1300	MASKING TAPE	3" x 60 YDS (76mm x 54m)	24 CASE
